Summary

Recent graduate with hands-on experience as a Software Engineer Intern, working on frontend development using React.js, TypeScript, Tailwind CSS, and Vite. Experienced in building and deploying full-stack web applications using React.js, Node.js, Express.js, MySQL, and payment gateway integration. Strong foundation in Python, SQL, and data analytics with experience building data-driven projects and dashboards.

Education

Dadi Institute of Engineering and Technology B.Tech in Data Science Coursework: Database Management (SQL), Python, Power BI, Data Analytics	Dec 2021 – Apr 2025 CGPA: 7.36/10
Sri Chaitanya Junior College Board of Intermediate Education	Apr 2021 Percentage: 73%
Chalapathi E.M School Secondary School Certificate	Apr 2019 Percentage: 87%

Technical Skills

Programming Languages: Python, SQL, TypeScript, JavaScript
Frontend Technologies/Frameworks: React.js, Tailwind CSS, Vite, HTML5, CSS3
Backend Technologies: Node.js, Express.js, REST APIs
Database: MySQL, SQL Workbench, PostgreSQL
Analytical Tools: Excel, Power BI, Power Query
Libraries & Frameworks: NumPy, Pandas, Matplotlib
Development & Deployment Tools: GitHub, Visual Studio Code, Hostinger

Experience

- **Software Engineer**, Synvide Business Solutions Nov 2025 – May 2026
 - Worked as a frontend developer on product-based web applications
 - Developed scalable UI features using **React.js with TypeScript**
 - Styled responsive interfaces using **Tailwind CSS**
 - Collaborated with the team using GitHub for version control
 - **Project: Oshoppe**
 - Live e-commerce website: oshoppe.in
 - Built reusable, type-safe components and implemented product pages
 - **Project: OPD365**
 - Website: opd365.com
 - Developed scalable frontend modules for healthcare workflows
 - Ensured clean architecture and reusable component design
 - **Project: NearHub (APK)**
 - Developed a local marketplace mobile application connecting nearby buyers and sellers
 - Focused on intuitive UI, product discovery, and user engagement
 - Available On Android Play Store: [NearHub App](#)
- **Data Science Intern**, Datavalley India Pvt Ltd. Mar 2024 – Jul 2024
 - Performed data preprocessing, feature selection, and model building using Python
 - Worked with NumPy, Pandas, Matplotlib, and Scikit-learn
 - Built Power BI dashboards for insights and reporting

Projects

- **MBR Fashion Hub – Full Stack E-commerce Website** May 2026
 - Developed and deployed a full-stack e-commerce website for a fashion client
 - Built responsive frontend using **React.js, TypeScript, Tailwind CSS, and Vite**
 - Developed backend APIs using **Node.js and Express.js**

- Integrated **MySQL** database for managing products, users, orders, and inventory
- Implemented online payment functionality using **Razorpay Payment Gateway**
- Deployed the production website using **Hostinger**
- Enabled users to browse products, buy items online, and complete payments securely
- Leveraged AI-assisted development tools for efficient debugging, code optimization, faster development workflows, and enhancing overall application performance
- Live Website: mbrfashionhub.com

- **Predicting Blood Donor Return Using Minimal Behavioral Data**

Nov 2024 – Mar 2025

- Built a predictive model to predict donor return using minimal data, achieving 84.17% accuracy
- Utilized SQL for data extraction and transformation, and performed data cleaning and model training
- Analyzed donor trends and visualized key insights with Power BI dashboards
- **Tools/Technologies Used:** Jupyter Notebook, MySQL Workbench, Power BI, Pandas, NumPy, Scikit-learn

Certifications

- Azure Fundamentals (Microsoft); HP LIFE – Data Science & Analytics
